

Printing Library Maps Using Chrome Browser

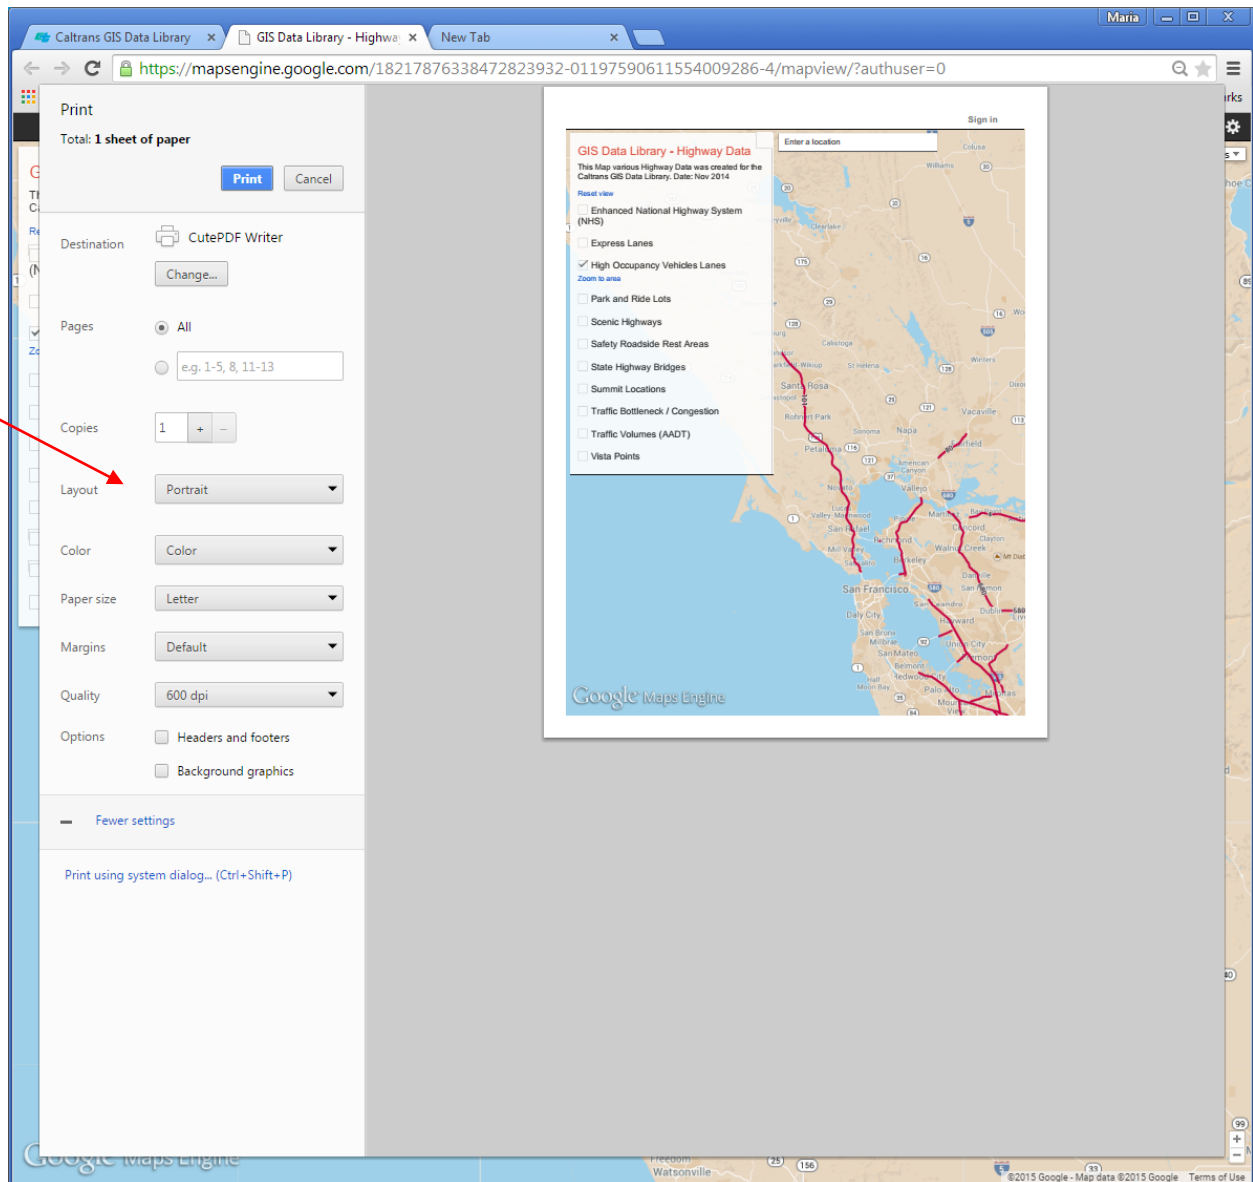

1. Select data layer.
2. Zoom in and position the map as you wish it to appear on the printed page.
3. In your Chrome browser, select the three bar icon at the top right of page.

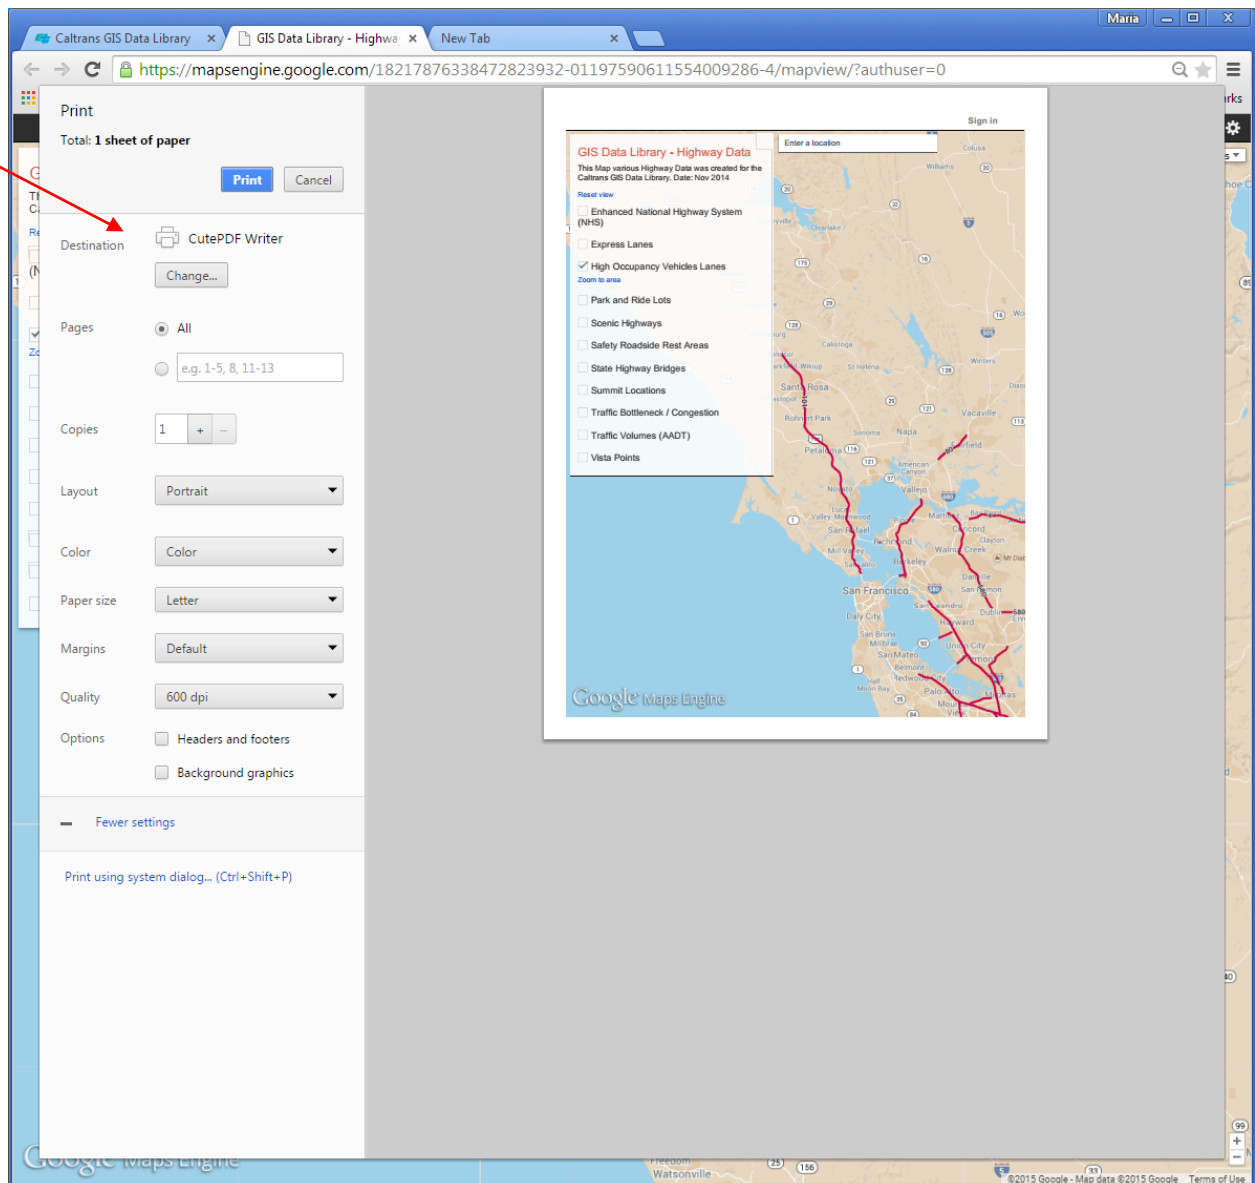

4. Select More Settings.

5. Choose Layout Landscape or Portrait

6. Choose Color or Black or White
7. Choose Paper size (play with the various options to capture the best map size)
8. Choose Margins
9. Choose DPI (dots per inch) Quality
10. Add Header, Footers, or Background Graphics
11. Select Destination for printer choices or PDF options

12. Click on Print at the top of the page. If you selected PDF from step 11 above you will need to name and save file, then reopen in Adobe to Print.
